

Banana Chips

Ingredients:

Bananas—as many as you want to use

Optional—Peanut Butter Powder

Directions:

Preheat the oven to 200 Fahrenheit, place a layer of parchment paper on a baking sheet.. Slice the bananas into 1/8-1/4 inch slices. Place slices on the parchment paper. If you want additional flavor, sprinkle the slices on one side with peanut butter powder. Place in the oven for about two hours. When you remove them from the oven, carefully loosen the slices from the parchment paper and allow to cool. Go ahead and taste them, but try not to eat them all in one sitting...that is very hard!
